Timberlook Flush Sash

Timberlook Heritage Flush Sash recreates traditional timber flush casements in uPVC, with square mortise-and-tenon corners, a slim 58mm sash, concealed trickle vents and period colours. We're specialist designers for the system.

58mm	**1.2**	**13**
slim flush sash	U-value from (W/m²K)	colours and woodgrains

Manufacturer data. Performance varies with size, glass and configuration, and is confirmed at survey.

Made in	Great Britain

Key benefits

- Sash closes flush with the frame, chamfered outside and sculptured ovolo inside
- Mechanical joints with a square mortise-and-tenon finish, no mitred corners
- Concealed trickle vents behind a 3mm head drip
- 21mm astragal bars, cottage bars and leaded lights
- Yale shootbolt locking with a dual-setting night vent, PAS 24 option
- Matching flush doors and French doors with equal sightlines

Ideal for

Replacing timber windows · Period homes and cottages · Conservation areas · New builds wanting a traditional look

We're specialist designers for the Timberlook system, so we can plan bar layouts, colours, cills and hardware to suit your home.

Talk to us about your project: we work from drawings, measure every opening on site, and fit with our own team.
